Forté A-BUS, Intercom and IR Available Now In Europe

LeisureTech Electronics Appoints Aldous Systems for European Distribution

Rosebery, NSW Australia Monday, 26 January 2009 - LEISURETECH has appointed Aldous Systems (Europe) Ltd as its European representative for their Forté range of products.

Aldous Systems have distributed **LEISURETECH's** Forté A-BUS products in the UK since July 2007. Since then, the company has been very successful in developing the market for Forté A-BUS multi-room audio products to the UK building industry.

Aldous Systems has now expanded their stock holding of all Forté products at their Aylesbury base to provide quick and easy access for European distributors. **LEISURETECH** is pleased that Aldous Systems will also provide marketing and support to European distributors eliminating the problems of time differences with Australia.

Andrew Goldfinch managing director of **LEISURETECH** said, "Aldous Systems have done a great job promoting our products in the UK market. Their accomplishments and understanding in the simplicity Forté A-BUS offers to the building market has been a key to their success. I believe the improved access to the complete range of Forté A-BUS, Forté Intercom and Forté IR will be of great assistance to European distributors."

Press Release- Forté A-BUS, Forté IR and Forté Intercom Available In Europe

Jason Aldous commented, "We are very pleased to be appointed to this new expanded roll. We enjoy working with LTE as they work on a very friendly and positive team approach which has enabled us to develop the market for Forté products with our local knowledge. In return they have responded by manufacturing some special products to suit our local needs which have made the Forté lines much more saleable. With this team approach I think we have a lot to offer European partners."

Aldous will be displaying the Forté range of products on stand 1EF109 at ISE.

About Aldous Systems

Aldous Systems (Europe) Ltd. is a distributor of networking and audio/video equipment. Established in 2002 with a commitment to good customer service and a strong engineering background in networking products, Aldous Systems has managed to build a customer base in the UK and mainland Europe and is continuing to research new and innovative solutions for residential and commercial networking. Product lines currently cover a range of technologies including voice, data, video, audio, CCTV, automation and control. www.aldoussystems.co.uk

About LeisureTech Electronics

Founded in 1977, LeisureTech Electronics' is a global OEM technology provider and manufacturer for the residential systems market. LTE founder Andrew Goldfinch teamed up with Len Andrews in 1989 and in 1997 the enterprising duo invented A-BUS, a revolutionary technology for multi-room audio.

A-BUS, launched worldwide in 2000, is licensed to leading CE manufacturers and quickly becoming the standard for affordable multi-room audio applications. In 2005, LeisureTech opened its own design and manufacturing facility in Thailand to support its rapid growth while providing expanded resources for its customers. In 2009 LeisureTech expanded its 15 year well known Australian IR product line as part of the Forté family with new components and new standard features not found in any other IR systems world-wide. www.leisuretech.com.au
