

# GROOVY GADGETS

## CHARGE AND GO ▶▶▶

You'll never have to hunt down a power cord as the Motorola Portable Power P790 is able to provide one to two full battery charges for your handset and more than 10 full Bluetooth headset charges. The pre-charged P790 weighs a mere 79g and is small enough to fit into a purse or pocket. It plugs into the mini-USB port on a Bluetooth headset or compatible phones including Motorola, Nokia, Blackberry, SDA and Q-tech for instant power – no wall outlets, no wires required. RRP \$79.95.

## ◀◀◀ RAIN, HAIL OR SHINE

The Sanyo CE42LM4WPR 42" weatherproof LCD monitor is dust resistant and can withstand strong jets of water (it meets the International Electrotechnical Commission Standard IP56), making it ideal for use in courtyards and pool areas. A panel brightness of 500cd/m<sup>2</sup>, screen resolution of 1366 x 768 and a contrast ratio of 800:1 all work to produce high quality, realistic and vivid details, while the 178° wide viewing angle allows you to enjoy the entertainment from any position. The monitor, which retails at \$12,999, is HD-ready and has HDMI with HDCP and Component to produce high quality images. A PC input (D-sub 15 pin) makes it ideal for outdoor gaming as it accepts a wide range of PC signals including WXGA, as well as three separate AV inputs with loop-through connections for easy installation of multiple displays.
