LeisureTech Electronics adds MuxLab as supplier of Cat 5e/6 solutions
28 February 2012 | Industry news

LeisureTech Electronics (LTE) is pleased to announce that it has added MuxLab to its roster of added value suppliers of value-added connectivity solutions for CCTV and AV.

Under the agreement, LeisureTech will sell the MuxLab product line through its distribution network in Australia. MuxLab's product line includes AV extenders, distribution hubs and matrix switchers and address a wide range of signal protocols including: composite video, component video, S-Video, VGA, HDMI, DVI, HD-SDI, USB and CATV allowing Cat 5e/6 twisted pair cable to be used instead of native AV cable for more cost-efficient cabling.
