

# It's Cool to be Square

((**TRU**AUDIO))

Turn up the volume.™

## with TruAudio's Ghost Speakers

Home owners or interior designers wanting a square speaker footprint in bulkheads or corners now can with the new Ghost square grilles, making it all too easy for the installer by still providing a round hole cut out. The magnetised square grille is super-flushed over the round hole and with all the Ghost series, the frame disappears.

Square grilles are suitable for the entire standard and single stereo speakers in 4.5", 6.5" & 8" sizes at difference performance levels and budgets.

Coming soon are the new Ghost HT **In Wall Home Theatre** series offering both black and white grilles.

*Congratulations to  
on winning the*

*'Best Integrated Home  
Installation over  
AUD\$300,000'  
award in the CEDIA  
Electronic Lifestyles®  
Awards 2010.*

*The house incorporates TruAudio speakers throughout.*

### Ghost Series Features:

- White poly and white carbon fiber woofer models
- 4.5" models have a small footprint that aesthetically matches downlights
- High-grade crossover design and driver materials improve acoustic reproduction
- Swivel tweeter
- Speaker equalization adjustments to fine-tune the sound
