Now you see it, now you don't

TruAudio proudly introduces the new Ghost Home Theater Series, LCR's and SUR's designed for home theater. These speakers feature a super flush, rimless all black speakers, and our newly designed Wave Guide. Once again we've broken the mold of cutting-edge speaker technology and innovation. TruAudio specializes in home theater architectural speakers, we constantly go to great lengths to ensure that our speakers blend into the room's décor while still delivering unforgettable, life-like sound. The Ghost series pushes this concept to an all new level. A uniquely designed speaker housing hides the entire frame once the grill is installed. With this new design, the speaker blends seamlessly into the room's environment and is a labor saver.

Each Ghost HT (LCR) speaker comes with a straight and 25° angled tweeter Wave Guide. The Wave Guide will help improve your sound stage in any type of installation. TruAudio is known for amazing sound and ease of installation. Now with the Wave Guide you can create the perfect surround sound environment. Wave Guide - another great TruAudio innovation.
