

# Music throughout your home

Quality Affordable Audio Designed by You  
When Building Your Home

When building a new home run the cable you require for today and what you may need tomorrow. Maximise your investment as well as your enjoyment. Build your home for the future the Forté A-BUS way!

## Why Forté A-BUS?

Connects to any stereo system, Home Theatre and/or A-BUS/READY™ amplifier and source component

Cat-5 cable and local room amplification from wall keypads or speakers, creates minimal signal loss

Mix and match keypad styles per room depending on the level of control you desire

Custom built-in to your home as single-source, multi-source for 1-100 rooms!

Any room can play any source simultaneously

Sources are centrally located in a TV or Home Theatre room next to the hub.

IR sensors on keypads or speakers work in sunlight and have a 20 metre range

Upgrade existing Forté A-BUS wired homes - in minutes not days - as your lifestyle changes

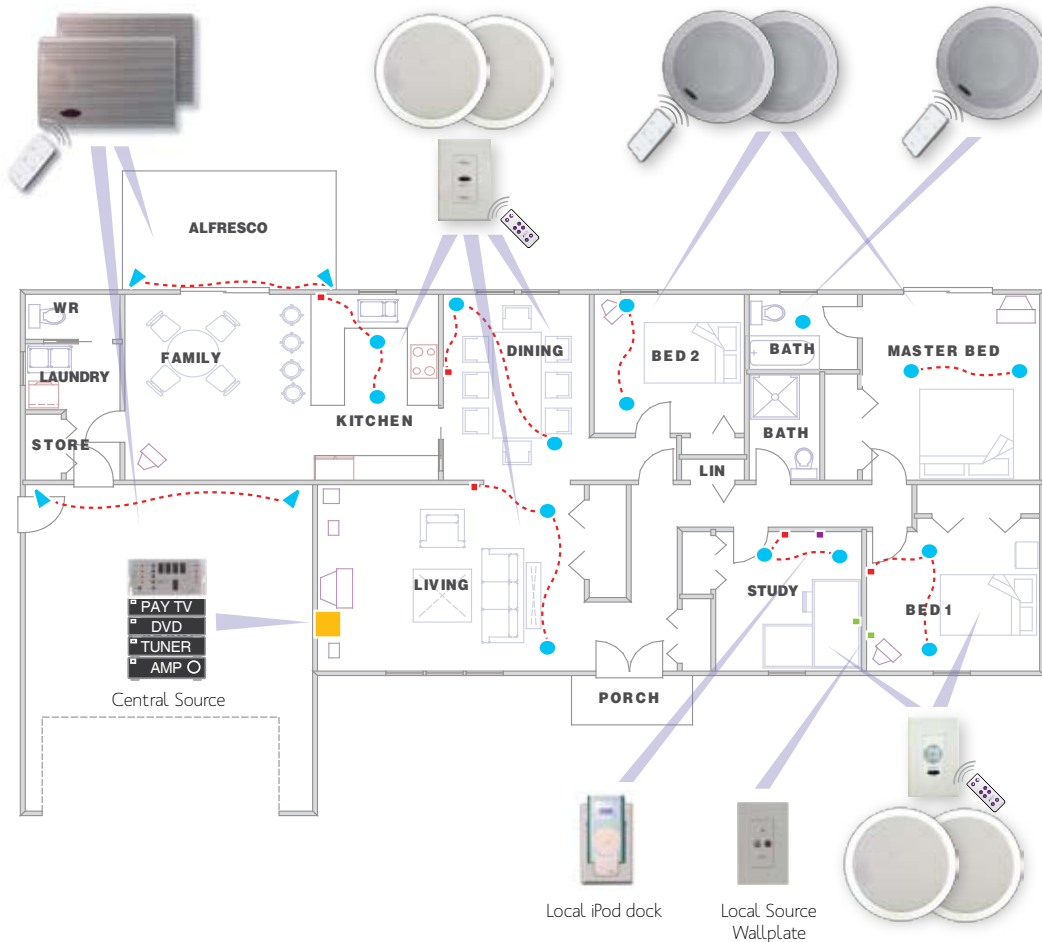

Very low heat output as Forté A-BUS is meant to be used all day every day

Interior design friendly - no bulky components, messy cables or dusting

Very low energy consumption (4 rooms have the energy draw of a single light bulb)

True audiophile sound quality, reliable, easy and fun to use!

It's an investment for higher home re-sale value

# Design a Forté A-BUS music system that's right for you

Choose speakers and keypads to build a house music system for you and your family.

The table below will help to work out your requirements based on the most popular A-BUS components.

Owner: \_\_\_\_\_ Location: \_\_\_\_\_

Please tick one of the following

- A single-source system, the same central source will play in each room
- A 4-source system, each room can play a different central source simultaneously

A-BUS local input modules can be added to individual rooms such as bedrooms and offices. The local source when turned on will only play in that room overriding the central source

No.1 Benefit

## Speaker & Control Explanation

A-BUS/DIRECT amplified ceiling speakers controlled via Learning remote keypad with wall cradle. Do not require a wired wall module

A-BUS/DIRECT outdoor amplified speakers controlled via Learning remote keypad with wall cradle. Remote is magnetized and can stick to a fridge. Do not require a wired wall module

Local input iPod wall dock for any iPod, iTunes or iPhone. Plays the "i source" only in the one room

4-source, 4-zone amplified wall module with flushed ceiling speakers

Single-source amplified wall module with flushed ceiling speakers

Local input RCA wallplate for any source: ie computer, TV, DVD, iPod. Plays any of these sources only in the one room, via RCA lead.

Your choice per room
